FAQ

I am young and healthy, do I need a loss of licence insurance?

Being a pilot is a passion that requires lots of time and financial investments. Trainee pilots are not spared by the risk of becoming mentally or physically unfit to work and so losing their licence. Criteria applied by aeromedical centers are the same for professional and trainee pilots.

Am I covered outside training hours?

Of course! Our offer is a 24/7 coverage.

Am I still covered after my training?

Yes, you can keep your coverage for a maximum period of 5 years after the end of your training while you are looking for a job. As soon as you find a job, your trainee pilot coverage ceases and you must contact us in order to change your insurance policy to a professional pilot insurance contract.
